Chang Wah Technology (NT$0.4 par value per share)

Consolidated Revenue Press Release for August 2026

Publisher: Chang Wah Technology
Publish Date: September 4, 2026

Chang Wah Technology Co., Ltd. (CWTC, 6548tw) today announced consolidated revenue of NT$1.65 billion for August 2026, representing a 6.1% increase from July and a 43.66% increase year over year, with monthly revenue reaching another record high. For the first eight months of 2026, consolidated revenue totaled NT$11.193 billion, up 28.26% year over year, also setting a new record for the same period in previous years. Overall operations continued to maintain steady growth momentum.

Chang Wah's revenue continued to grow in August, primarily benefiting from a strong recovery in market demand. The growth momentum has gradually expanded beyond consumer products to a broader range of applications, including AI, low-Earth-orbit (LEO) satellites, industrial automation, and automotive applications, driving robust orders for products such as power management, discrete devices, and MCUs.

With market demand recovering and product applications continuing to expand, Chang Wah's overall capacity utilization remains at a high level, supporting continued improvement in its overall operating performance. Cumulative revenue for the first eight months of the year has exceeded NT$11 billion, representing a 28.26% year-over-year increase. This demonstrates the continued benefits of the Company's product portfolio expansion and technology upgrades, while reinforcing its overall growth momentum.

Revenue Report

units：NTD in thousand

	Consolidated Revenue			MoM	YoY
	Aug. 2026	July 2026	Aug. 2025		
Chang Wah Technology(6548)	1,650,483	1,555,599	1,148,903	6.1%	43.66%

	Accumulated consolidated Revenue		YoY
	First eight months of 2026	First eight months of 2025	
Chang Wah Technology (6548)	11,193,013	8,726,558	28.26%

About Chang Wah Technology (6548 TT):

Chang Wah Technology (CWTC, 6548 TT) is a global professional IC lead frame supplier. Through its plants in Taiwan, China and Malaysia, the company produces lead frames for IC packaging through stamping, etching and electroplating processes. CWTC's lead frame products are widely used in global semiconductor applications, including consumer electronics, automotive and industrial.

Founded in 2009, CWTC manufactures, develops and sells IC lead frame packaging materials to serve first tier global IC packaging companies and vertically integrated manufacturers. CWTC will continue to implement its strategy of capacity expansion and M&A to pursue long-term sustainable revenue growth. We target to become the lead frame supplier with the capability of defining global lead frame industry specification.
