

Chang Wah Technology (NT\$0.4 par value per share)

Consolidated Revenue Press Release for July 2026

Publisher: Chang Wah Technology

Publish Date: August 6, 2026

Chang Wah Technology Co., Ltd. (CWTC, 6548tw) today announced consolidated revenue of NT\$1.556 billion for July 2026, representing an increase of 3.61% from June and 35.44% from the same month last year, setting a new all-time monthly record. Cumulative consolidated revenue for the first seven months of 2026 reached NT\$9.543 billion, up 25.93% YoY and also marking a record high for the same period in the Company's history.

The record-breaking monthly and year-to-date revenue was primarily driven by the continued recovery in end-market demand and solid customer order momentum, reflecting improving business conditions across the Company's major markets.

Looking ahead, Chang Wah Technology expects business momentum to remain supported by growing demand from data centers, high-efficiency power management, networking, and industrial applications. As market demand continues to recover steadily, the Company's growth drivers have expanded beyond a single product category to encompass its major product lines and end markets. In parallel with ongoing capacity expansion projects in Taiwan, China, and Malaysia, Chang Wah Technology will continue to enhance its manufacturing capacity and product competitiveness. The Company therefore maintains a cautiously optimistic outlook for both the second half of 2026 and its long-term business prospects.

Revenue Report

units : NTD in thousand

	Consolidated Revenue			MoM	YoY
	July 2026	June 2026	July 2025

About Chang Wah Technology (6548 TT):

Chang Wah Technology (CWTC, 6548 TT) is a global professional IC lead frame supplier. Through its plants in Taiwan, China and Malaysia, the company produces lead frames for IC packaging through stamping, etching and electroplating processes. CWTC's lead frame products are widely used in global semiconductor applications, including consumer electronics, automotive and industrial.

Founded in 2009, CWTC manufactures, develops and sells IC lead frame packaging materials to serve first tier global IC packaging companies and vertically integrated manufacturers. CWTC will continue to implement its strategy of capacity expansion and M&A to pursue long-term sustainable revenue growth. We target to become the lead frame supplier with the capability of defining global lead frame industry specification.
