### Consolidated Revenue Press Release for March 2026

Publisher: Chang Wah Technology

Publish Date: April 8, 2026

Chang Wah Technology Co., Ltd. (CWTC, 6548tw) announced today that its consolidated revenue for March reached NT\$1.327 billion, setting a new all-time monthly high. The figure represents a 16.04% increase month-over-month and a 20.12% growth compared to the same period last year, reflecting strong operating performance.

Cumulative consolidated revenue for the first quarter reached NT\$3.672 billion, setting a record high for the same period and ranking as the fourth-highest quarterly revenue in the company's history. This performance trails only the NT\$3.778 billion recorded in the second quarter of 2022, NT\$3.684 billion in the third quarter of 2022, and NT\$3.672 billion in the fourth quarter of 2021. Overall, revenue continues to demonstrate steady and resilient growth momentum.

The strong revenue performance in March was primarily driven by increased demand from major OASTs and IDM customers, which led to a notable uptick in order volumes and supported the new monthly record. Looking ahead, as market demand continues to recover, CWTC expects its growth momentum to sustain in the coming periods.
