

Chang Wah Technology (NT\$0.4 par value per share)

Consolidated Revenue Press Release for September 2026

Publisher: Chang Wah Technology

Publish Date: October 6, 2026

Chang Wah Technology Co., Ltd. (TPEX: 6548) today announced consolidated revenue of NT\$1.713 billion for September 2026, up 4% from August and 43% YoY, marking another record high in monthly revenue. Consolidated revenue for the third quarter reached NT\$4.919 billion, representing a 14% increase QoQ and a 41% increase YoY. For the first nine months of 2026, consolidated revenue totaled NT\$12.906 billion, up 30% YoY. Revenue in September, this third quarter, and cumulative revenue for the first nine months all reached record highs.

Chang Wah Technology's revenue marks the seventh consecutive month of record-high monthly revenue. With market demand recovering and product applications continuing to expand, growth momentum has extended beyond consumer electronics, networking, industrial control and automotive applications to include AI servers and low-Earth-orbit (LEO) satellites, driving continued growth in customer orders and shipments.

As demand for leadframes and customer orders continue to increase, Chang Wah Technology has maintained a high overall capacity utilization rate. To meet growing customer demand, the Company has previously initiated capacity expansion plans. The new plant in Weihai, Shandong, China is expected to begin equipment installation in the first quarter of 2027, with revenue contributions gradually ramping up in the first half of the year and becoming more significant in the second half. Meanwhile, construction of the Company's new plant in Malaysia commenced in March 2026 and is expected to be completed in the third quarter of 2027. As new capacity comes online, the expansion is expected not only to enhance the Company's supply capabilities and production flexibility, but also to better meet customer demand and provide new momentum for future business growth.

Chang Wah Technology is scheduled to hold its third-quarter online investor conference on October 28. The management team will provide an update on the Company's third-quarter financial results and fourth-quarter business outlook.

Revenue Report

units : NTD in thousand

	Consolidated Revenue			MoM	YoY
	Sep. 2026	Aug 2026	Sept. 2025

About Chang Wah Technology (6548 TT):

Chang Wah Technology (CWTC, 6548 TT) is a global professional IC lead frame supplier. Through its plants in Taiwan, China and Malaysia, the company produces lead frames for IC packaging through stamping, etching and electroplating processes. CWTC's lead frame products are widely used in global semiconductor applications, including consumer electronics, automotive and industrial.

Founded in 2009, CWTC manufactures, develops and sells IC lead frame packaging materials to serve first tier global IC packaging companies and vertically integrated manufacturers. CWTC will continue to implement its strategy of capacity expansion and M&A to pursue long-term sustainable revenue growth. We target to become the lead frame supplier with the capability of defining global lead frame industry specification.
